Jun 2020 - Sep 2022

Times Consultant (Pvt.) Ltd. | Karāchi, Sindh, Pakistan

Worked as Research in Rearch and Development Department.

Teaching Assistant
Feb 2022 - May 2022

National University of Computer and Emerging Sciences | Karāchi, Sindh, Pakistan

Graded student tests and assignments.
 Helped students understand topics they were having difficulty with.

Projects

Agri-Kare (FYP) (React Native, NodeJs, CNN, Mobilenet, Express, Mongo DB, NLTK)
Present

An app for farmers which will help them in detecting the crop disease and will suggest the pesticide which will be used to overcome the problem.

The crops dataset was collected from keggle and other online sources.
The recommendation data was generated by us from different companies providing pesticides in Pakistan.
CNN model is used for the disease detection part, it is trained on the data set collected and is identifying the crop and its disease.
For recommended pesticide python flask Api is used and for matching the disease and crop name fuzzywuzzy is used.
Node js is used in the backend .
React native is used in the frontend.
Mongo DB database is used.
JWT and bearer tokens for User authentication. State management to ensure one time login

Carpool App Flutter, Nodejs, MySql
Present

During University I often had trouble finding ride to University. Public transport is not very reliable in my Country and cab service expensive. This was in a way created to provide cheap and reliable transport to FAST students.

Created Pesticide/Pesticide Database
Nov 2022 - Jan 2023

There was no database about pesticides available in Pakistan, and crops and crops diseases they were applicable on and in what concentration and quantity.

University Resources Manager Flutter, Firebase, Firestore
Present

It was often hard to collect notes during exams. Students would upload notes divided by tags, categories and semesters for easy access by other students. This app made all required data available offline

Algorithms Implementation (Floyd Warshal, Bellman ford etc) Using Python
Present

Implemented an optimized code to handle 100s of Nodes

Volunteer Experience

TCF Saeedabad Campus English Teacher
Jun 2018 - Jul 2018
TCF The Citizen Foundation

I was tasked with assessing the students and then preparing them for college entrance test.
Designing a Curriculum to prepare them for entrance exams.

TCF Saeedabad Campus Mathematics Teacher
Jun 2018 - Jul 2018
TCF The Citizen Foundation

I was tasked with assessing the students and then preparing them for college entrance test.
Designing a Curriculum to prepare them for entrance exams.

Volunteer
Jun 2016 - Jun 2016
SIUT Hospital

I was tasked with comforting the patients and listening to their problems and bridging the gap between doctors, patients, and patients' families.

Volunteer
Dec 2015 - Dec 2015
NICH Hospital

I was tasked with comforting the patients and listening to their problems and bridging thegap between doctors, patients, and patients' families.

Core Skills

Business Requirements, Jira, Application Programming Interfaces (API), Query Writing, Databases, Database Queries, MSQL, Data Science, Artificial Intelligence (AI), Constructive Feedback, Code Review, C (Programming Language), Attention to Detail, jQuery, C#, .NET Framework, Sitecore, Oracle Database, ASP.NET MVC, Research

Education

National University of Computer and Emerging Sciences

Aug 2019 - Jun 2023

Bachelor's degree Computer Science
GPA 3.39

Languages

SINDHI *(Mother tongue)*, **URDU** *(C2)*, **ENGLISH** *(C1)*, **TURKISH** *(A2)*

Awards

13th in ICPC Regional 2022
